divided into, equal groups of,
share equally, divide

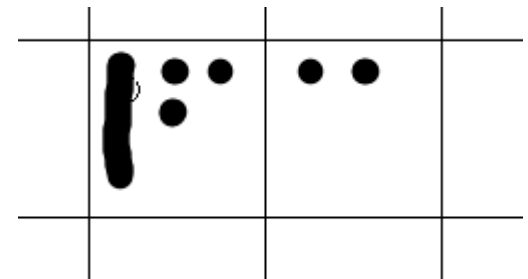

Steps to Secure Maths - **Concrete**, **Pictorial** and **Abstract**

How many apples altogether?

Counting real objects - let's say we have a group of 13 apples and a group of 2 apples.

Drawing a representation of those objects - We use jottings to represent the number of apples.

Writing a number sentence

We write it all out as a number sentence.

1	3	+	2	=	1	5
---	---	---	---	---	---	---
