

## St. Joseph's Catholic Primary School Recovery Premium Funding Plan 21-22

In June 2020 the government announced £1 billion of funding to support children and young people to catch up on missed learning caused by coronavirus (COVID19). This is especially important for the most vulnerable pupils and pupils from disadvantaged backgrounds who we know have been most affected. This funding includes:

- A one-off universal catch-up premium for the 2020 to 2021 academic year to ensure that schools have the support they need to help all pupils make up for missed learning. Mainstream schools received £80 per pupil.
- A [National Tutoring Programme](#) to provide additional, targeted support for those children and young people who need the most help.
- A recovery premium for disadvantaged pupils.

The funding should be used for:

- specific activities to support pupils to catch up for lost teaching over the previous months.
  - Supporting great teaching
  - Pupil assessment and feedback
  - Transition support
  - One to one and small group tuition
  - Intervention programmes
  - Supporting parents and carers
  - Access to technology
- specific activities which will help pupils catch up on missed education.

### Accountability:

The purpose of this report is to: outline the objectives of our catch-up tuition programme; describe how the funding is being spent; explain how and why pupils were identified for the catch-up programme and finally and most importantly, to identify the impact of what we have put in place.

## St. Joseph's Catholic Primary School Recovery Premium Funding Plan 21-22

### Targeted support

- One-to-one support
- Small group tuition
- Intervention programmes

### Cost implications
